EXAMINER

STIGELL, THEODORE J

ART UNIT PAPER NUMBER

3763

DATE MAILED: 11/14/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No.	Applicant(s)	
	09/940,986	RESSEMANN ET AL.	
	Examiner	Art Unit	
	Theodore J. Stigell	3763	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 August 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-110 is/are pending in the application.
- 4a) Of the above claim(s) 20-110 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-19 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-19 rejected under 35 U.S.C. 102(e) as being anticipated by Kokish et al. (6,485,500). Kokish discloses a method of treatment of a blood vessel comprising advancing an evacuation sheath assembly (50) into the blood vessel, stopping normal antegrade blood flow in the blood vessel proximate the stenosis, advancing a therapeutic catheter (44) into the blood vessel, treating the stenosis with the therapeutic catheter, advancing an infusion catheter (34) to a location distal to the stenosis, infusing the blood vessel with a fluid supplied by the infusion catheter, and inducing retrograde flow within the blood vessel to carry the infused fluid and embolic material dislodged during treating into the evacuation sheath assembly.

In regards to claims 2-4, Kokish discloses a method that includes all of the limitations as recited in claim 1 wherein advancing the infusion catheter includes advancing the infusion catheter through a distal end of the evacuation sheath assembly, wherein stopping blood flow includes creating a first seal between the evacuation

Art Unit: 3763

sheath and the blood vessel and creating a second seal between a guide catheter and a proximal portion of the evacuation sheath assembly.

In regards to claims 5-9, Kokish discloses a method that includes all of the limitations as recited in claim 1 wherein the retrograde flow includes applying a vacuum through the evacuation sheath, treating the stenosis includes advancing an angioplasty balloon (44), wherein treating the stenosis includes advancing a stent to the stenosis, and wherein inducing retrograde flow involves venting pressure as is well-known in the art.

In regards to claims 10-17, Kokish discloses a method that includes all of the limitations as recited in claim 1 wherein the blood vessel can be a coronary artery or saphenous vein graft, wherein the step of stopping normal antegrade blood flow is performed prior to advancing the device a stenosis, wherein infusing the blood vessel is done through infusion port (42), and wherein saline, blood, or radiopaque dye can be infused into the blood vessel.

In regards to claim 18-19, Kokish discloses a method that includes all of the limitations as recited in claim 1 wherein the evacuation sheath is advanced through guide catheter and further applying a vacuum to the guide catheter and further comprising inducing retrograde flow prior to advancing the infusion catheter to move debris proximal to the treated stenosis.

Response to Arguments

Applicant's arguments with respect to claims 1-19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Stigell whose telephone number is 571-272-8759. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
